When you have your portrait taken you naturally want a GOOD one; to ensure this you must go to a place where not only the best appliances and artistic skill are to be found, but where also TIME can be taken to study your features, get their most pleasing expression, the most suitable light and graceful pose.
If the photographer lowers his prices too much he cannot take the necessary time to do his work well, but must run his customers through like sheep, trusting to the NUMBER to make his profit.
A sensible person will beware of such and prefer to go where fair prices are charged and every care taken to ensure the work turning out satisfactorily; such is the case at the "Gran Fotografia Platense" whose customers never having been driven away by excessively high prices, do not require to be lured back by catchpenny reductions.

TELEGRAMS
TO STANDARD.

London, 15th—The new Cabinet is not yet complete, but it is hoped that it will be so before to-morrow night.

Mr. Gladstone finds difficulty in getting a Foreign Affairs Minister.

In view of the fears expressed by the Austrian, German and Italian papers, efforts are being made to induce Lord Rosebery to take the portfolio as he inspires confidence in the Governments of the countries named, and is also preferred by the Queen.

London, 15th (night)—Mr. Gladstone kissed the Queen's hand at Osborne today and was officially appointed Premier. He takes himself the posts of First Lord of the Treasury and Privy Seal.

Lord Rosebery still refuses the Foreign Office, as he wishes for liberty of action, which Mr. Gladstone as yet refuses.

Brussels, 15th—The occurrences in the Congo State have caused some impression in official circles. King Leopold has ordered a strict inquiry as to the conduct of the authorities, as the revolt is attributed to the hatred of the Arabs towards the Congo Government.

St. Petersburgh, 15th—Further arrests have been made in Warsaw and other Polish cities of members of the Patriotic League who were working for the independence of Poland. Documents incriminating many persons have been seized.

(To the "Prensa".)

London, 12th—A telegram to the *Standard* from Tien-Tsin says that China is beginning to recognise the gravity of the Pamira question. Troops have been ordered to Rnngkal.

The Mesmaror tribes have joined the Sultan's army in Morocco and marched into Anghera without resistance. They burned two deserted villages.

Gladstone consulted Sir W. Vernor. Harcourt, Lords Kimberley and Spencer and John Morley to-day about his new Cabinet.

The *Pall Mall Gazette* says the adoption of Parnell's Home is inevitable.

Monsignor Stoner is to be made a Cardinal.

It is said that Sir William W. Harcourt will be Chancellor of the Exchequer and John Morley Chief Secretary for Ireland, Lord Herchell Governor General of India, Chief Justice Coleridge Lord Chancellor, and Sir Charles Russell Attorney General.

It is said Gladstone will find some difficulty in pleasing the Queen in the appointment of the high officials of the Court.

The *Daily Telegraph* says that Lord Rosebery will not be in the new Cabinet, and that Earl Kimberley will probably be the new Minister of Foreign Affairs.

New York, 12th—The fall in silver caused a very bad impression on the London Stock Exchange yesterday. There was a general fall in all securities. Silver bars 37¼.

London, 14th—The naval manœuvres have proved a failure.

Simla, 14th—The Emir of Afghanistan has expressed his satisfaction at the appointment of General Roberts, as British Commissioner, but has not fixed the day for an interview with him.

Berlin, 14th—The propaganda against the Jews is growing fast. Numerous pamphlets hounding them down have been published

The edict prohibiting the Reichsbank to contribute to the Russian loan has been revoked.

The Commercial Treaty Committee recommends a reduction in import dues in Russian grain and timber, if she reduce herduties on German manufactures, especially iron and steel.

All political parties in Germany regret Gladstone's return to power as a danger for the Triple Alliance, unless the Foreign portfolio be taken by Lord Rosebery. There are rumours that the latter has refused it, as he does not agree with Gladstone's views about the Triple Alliance and Egypt.

Paris, 14th—A plot to dethrone the Prince of Montenegro in favour of his son Alexander has been discovered. The Councillors of the Prince are implicated and have fled to Austria. They intended to capture the Prince and send him abroad by sea.

TAXES AND TAX-PAYERS.

Mr. Francis Seeber in a letter to us a few days ago raised a question which challenges the most attentive consideration. He asks us; is the incidence of taxation as heavy here as in other countries? If we compare the amount per head which is levied in taxes, national and provincial, in Argentina with the quota in other countries we must confess that the ratio here is very low. And even if we proceed to compare taxation and national wealth the advantage is still on the side of Argentina.

Reducing taxation in all countries to gold dollars (and by taxation we mean all sources of revenue even including state-railways, telegraphs, post-office, water-works and other branches of public service which are not properly taxation) we find the following result:

	Dollars per head		
	National	Provincial	Total
Argentina ..	7	4	11
Uruguay	21	—	21
U. Kingdom.	12	10	22
France.....	14	6	20
Germany....	15	5	20
Italy.....	11	5	16
U. States....	7	5	12

From the above it appears that taxation per inhabitant is certainly much less in this country than in Europe, and even less than in the United States. But it is needless to observe that some countries are richer than others, and that taxation perinhabitant is a deceptive test. Let us rather compare the wealth of countries, to ascertain their power to support taxation.

The wealth of nations can only be measured approximately. In the Handbook of 1884 we estimated that of Argentina at 1,875 millions of gold dollars, and in 1886 Dr. Latzina, the Government statist, arrived at nearly the same figures. Our estimates in the new Handbook of 1892 compare with those of 1884 thus:

	Millions gold dols.	
	1884.	1892.
Lands	527	646
Houses.....	472	520
Cattle.....	331	257
Railways..	79	382
Sundries ..	466	602
Total...	1,875	2,407

We shall now proceed to compare wealth and taxation in various countries (as in the *Dictionary of Statistics*) with Argentina as follows:—

	Millions of dollars.		Tax per-centage
	Wealth.	Taxation.	
Argentina	2,407	44	1·83
Uruguay..	504	14	2·77
U. Kingdom ...	46,500	810	1·74
France...	42,400	760	1·79
Germany	31,200	990	3·19
Italy	14,300	480	3·36
U. States	62,500	750	1·20
Total..	199,811	3,848	1·92

Here again we find that the incidence of taxation as compared with wealth is lower in Argentina than the general average, although higher that in Great Britain, France or the United States. The conclusion we may fairly come to is, that the burthen of taxation cannot be regarded on the whole as oppressive.

But there is yet another very important consideration, namely the distribution of the burthen, and here we find a most deplorable state of things. Taxation falls with tremendous weight on the people of Buenos Ayres.

In the first place as regards Customs-revenue we may assume that the Upper Provinces pay about double what the port of Rosario produces, since a good deal of imported merchandise is cleared in Buenos Ayres and sent on by rail or by water to its destination. Rosario stands for 10 per cent of the customs; hence we allow 20 per cent for the Provinces, and 80 per cent as paid by the people of this city and of the province of Buenos Ayres. Secondly the Contribucion Directa and Patentes of our city are divided between the National Government and the Municipality, and under other items the Upper Provinces pay little or nothing to the Treasury. For greater clearness we shall take the budget of 1893 and all taxes, local and municipal, reduced to gold, and the account will stand more or less as follows—

	Gold dollars	
	B. Ayres	Upper Provinces
Customs	19,200,000	4,800,000
Various taxes.....	6,000,000	1,000,000
Nat. revenue....	25,200,000	5,800,000
Provincial taxes.	3,400,000	3,600,000
Municipal taxes..	3,600,000	2,200,000
Total.....	32,200,000	11,600,000

The city and province of Buenos Ayres, with a population of 1,400,000 souls pay 32,200,000 dollars gold yearly; the Upper Provinces, with 2,600,000 population, only 11,600,000 dollars gold; the ratio per head stands thus:—

	$ gold
B. Ayres.....	23·0
Upper Provinces.....	4·5

We do not lose sight of the fact that in point of wealth Buenos Ayres (city and province) stands for 55 per cent of the Republic, but still the incidence of taxation is very much higher here, viz:—

	Gold dollars		
	Wealth	Taxes.	Ratio
B. Ayres	1,332,000,000	32,200,000	2·42
Up. Prov.	1,075,000,000	11,600,000	1·03

This shows that (as compared with wealth) the incidence of taxation is nearly 2½ times as much in Buenos Ayres as in the Upper Provinces. We come, therefore, to the following conclusions:—

1st. That the incidence of taxation in Buenos Ayres is twice as great as in the U. States, and very much greater than in France or England.

2nd. That, either as compared with population or wealth, the Upper Provinces are very lightly taxed.

3rd. That if any new taxes be proposed they should be with a view to make the incidence the same in the Upper Provinces as in Buenos Ayres (namely 2.42 per cent on wealth.)

4th. That a tax of this description would add 15,500,000$ gold to the national revenue.

P. S. Since writing the above Mr. J. B. an estanciero of Arrecifes, in this province, has come in to shew us his "boleto" of Contribucion Directa on a league of land which he has rented to a sheep-farmer for $6,000 currency per annum; the "boleto" amounts to $1,630 currency or 27 per cent of the rent. Such a property-tax is probably without parallel on the face of the globe. No wonder Dr. Plaza told Lord Rothschild that any increase of taxation in Buenos Ayres might produce another revolution.

OUR LONDON LETTER.

(From our own Correspondent.)

GENERAL TOPICS.

July, 15th.

One or two questions assert their supremacy over the wearying cries of officials in the clubs, all day long, shouting out the numbers of votes, the majorities, the 'no changes', the Gladstonian gains—or rather Liberal gains—and the Conservative gains. At the present moment we leave the black-board to read Captain Lugard's report of the fighting in Uganda. It is a sore subject. The allegations made by the French missionaries in regard to the conduct of British officers in Uganda were serious, and I need not add they were not believed here. One thing can be said, the catholic missionaries in Uganda can give points to the Imperial British East African Company in postal administration. Their letters arrived long since, whilst Captain Lugards' reports of February 11th. has only just been published. It was sent via Uskuma and Zanzibar, and received at Mombusa, June 21st. A letter from Captain Williams arrives at the same time, dated Bukoba March 7th and sent by the German mail. A Reuter' telegram from Zanzibar, July 14th, announces the arrival of fresh letters from Captain Lugard dated Kampola, March 4th. They confirm his first despatches regarding the origin of the conflict in Uganda, and with them is enclosed evidence furnished by representatives of the Church Missionary Society bearing out his statements. Captain Lugard dates the troubles in Uganda from January 12th. when the French bishop who had gone to meet a party of newly arrived priests reached Mongo. Difficulties and quarrels began to spring up culminating in the death of a protestant—a nigger presumably—at the hands of a Catholic—ditto. The king declined to punish the murderer and was evidently in the hands of the French priests. Finally on the night of the 24th. January the French party beat their war drums and attacked Kampola where Capt. Lugard was in charge. The French party were much more numerous than the Protestants, but a Maxim gun adjusted the balance with the result that the French party were defeated and took refuge in the islands out of which they were subsequently rooted and fled to Budda. Captain Lugard represents his own position as critical and fears that the king, who is with the French party, would not return. However we know from later letters received by the Catholic missions in Lyons that King Mwanga was disposed to accept the conditions however hard imposed upon him by the victorious party. He had started on his return to Sebou and a representative of the Catholic party had been sent to the British fort to conclude a treaty of peace.

Captain Lugard's despatch occupies more than a column. You will read it knowing that it is not a reply to the allegations made by the French bishops—allegations he knew nothing about when sending his report. The despatch is written in a plain, simple-minded soldierly fashion and confirms the idea here that the French catholic missionaries on their arrival at Ugando were a little too active and ambitious and probably ignorant of the treaties concluded between England and Germany. As for Lieut. Langheld the former officer whom French accounts represented as protecting the catholic party, Capt. Lugard speaks of him as being in company with Mr. Bagge, one of the officers of the company, and appears anxious as to his fate, having heard that he and Bagge had met with some disaster.

Orme has won the Eclipse stakes. 10,000 sovs. G. Barrett was the pilot, Mr. J. H. Houldsworth's Orvieto (Watts) was second and Mr. C. D. Rose's St Damien, (Woodburn) third. The course was crowded. The race was intensely exciting. Orme won only by a neck.

When the Liverpool people are entertaining the Duke of Connaught, who from a golden goblet sips the waters brought from a Welch lake, 70 miles distant, and inaugurates a vast and successful engineering project, their neighbours in Manchester are about to send round the hat once more, to finish their great ship canal, which as Councillor Harwood, who is a director, told us cannot in any case be finished before 1894. The original estimates for the canal were discreditable to the engineering talent employed, and the last estimates for which the Manchester Corporation liberally subscribed, seem to be equally fallacious. It can never happen that this gigantic undertaking will be left to encumber the land. Manchester is equal to the task, and is bound to complete it at any cost, which will probably be over twenty millions.

The Laboror war in the States which commenced in Pittsburg has extended to Idaho, where the governor has proclaimed Shoshone county in a state of rebellion Troops are encamped in the neighbourhood waiting for reinforcements. The strikers have manifested a most violent and murderous disposition against non-unionists and business men suspected of anti-unionist sentiments. There is a reported massacre of 12 non-unionists. At Homestead the works are held by U. S. troops, and no doubt the rising in Idaho will also be soon quelled: but the facts transpired open up a terrible vista in the economic condition of our too busy and too prosperous kinsmen in the West. The future points to only two alternatives—class tyranny such as the whites exercised over the negroes—or socialism. Meanwhile economic errors as well as the hospitality of the State towards the scum of Europe have to be paid for.

In Finance I have nothing to report beyond what I send you in print, in relation to a law case, Bateman v Baring Bros. Everything is dull. You will know of the failure of Isaac Cook & Co. the well known cotton brokers in Liverpool who were taken in by Wilson and Lunt, two broker's clerks who introduced themselves as representing an important syndicate. These young gentlemen have forged cheques and otherwise embezled to the amount of 57,000£.

PROVINCIAL NEWS.

An invaluable provincial exchange supplies the following in regard to Cañuelas. This town seems to have derived fresh life from the opening of the railway to Lobos. Improvement is visible everywhere. The streets are better paved and the municipality has even a fine town-hall. The district of Cañuelas covers 45 square leagues and the town comprises 80 blocks. The buildings are very fair, and there are no less than four plazas. In the church is an architectural gem. The "ejido" or township there are 100 "chacras." There are two agricultural colonies and a number of very fine estancias, amongst others those of Messrs. MacKlennon, Lahite, L. White, Casares, etc. etc. Mr. Casares's far-famed cabaña was started twenty years ago. A band of music, supported by public subscription, plays in the principal plaza every evening. The National Guard of Cañuelas is 800 strong. The commander is Mr. Adolfo Rodriguez. There is a social club with good reading and billard rooms. There are several public schools, which are very well kept and have a good and regular attendance. There are besides three private schools, and in the district there are three other public schools. No effort is spared to teach the young idea how to shoot properly.

Advices from Cordoba state that the settlers in the Caroya Colony have been greatly alarmed by certain placards posted up on the walls of the town advising them that before a certain day they must pay Mr. V. Peña or to his order what they owe the Government, we presume for the lands they hold. It is difficult to make out how the settlers stand in regard to their engagements with the Government, but an idea of their alarm may be gathered from the fact that when General Roca passed the colony on his return from Rosario de la Frontera, the settlers were all assembled at the railway station. They went up to the General and appealed to him to use his influence to have the order revoked. The General in reply advised them to draw up a petition which he himself would hand to the President of the Republic. Land questions of an unpleasant character are springing up all over the country and it is to be hoped the Government will immediately see to putting matters straight.

Telegrams from Santa Fé state that the Senate there has thrown out the referendum contract signed by the Governor and Messrs. Samuel B. Hale and Co. in regard to the arrangement of the provincial debt. The honorable gentlemen, however, passed a bill authorizing the Governor to convert and redeem the foreign debt of the province contracted to supply and increase the capital of the Bank with the funds deposited by the Bank in the Caja de Conversion.

It would appear from our Cordoba exchanges that political agents are working at present to return Mr. Varela Ortiz, to the Legislature. This gentleman was Deputy to Congress when Juarez-Celman was president. We hear that Mr. Calixto de la Torre is a probable candidate for the vacancy in the Cordobese senate.

ROSARIO CITY IMPROVEMENT.

A meeting was held at Winchester House, Old Broad Street, on Friday, 24th June, Mr. John R. Ravenhill in the chair

The Chairman: The object of calling the Debenture-holders together is to lay before them a suggested modification of the terms of the Concession, being the best which our representatives have been able to obtain after months of anxious and wearying efforts, conducted under great difficulties, and if these terms are not accepted, which your Committee regret they cannot recommend, the only alternative is legal proceedings, an alternative which the Committee and their representatives have done their utmost to avoid.

The Concession provided for a rate, based on frontages, as is usual in young countries where, as in this case, the Drainage is done by a Company and not by the local authorities. That rate was sufficient to provide for the service of the Debentures on the existing drainage area.

Sections 2 and 3 of the works were in due course accepted and brought into operation, but before Section 1, the principal part of the whole, was ready, the opposition arose, which has continued ever since, with the result that that Section has not yet been accepted, and even the Sections which have been accepted have only been availed of to a very limited extent; that is to say, out of a total of over 4,000 owners within the drainage area, only about 160 have as yet been connected with the drainage, and of these only about 30 actually pay for it, which payment certainly does not much exceed £200 a year. It is a startling fact that that is the only actual revenue received in respect of a large outlay of capital, and it need hardly be added that £200 does not represent more than a mere fraction of the working expenses.

A large and complete system of drainage like this cannot be worked to advantage or even kept in proper order except as a harmonious whole, including the daily flushing of the sewers, all of which necessarily involves considerable expenses.

While through the opposition the Company has been deprived of their only income, on the security of which the capital was raised, the town itself has had and still enjoys the full benefit of the drainage for the storm water, public closets, urinals, &c., without any consideration, the inconsistency and injustice of which is obvious and patent, and with strange inconsistency the municipality still insist on our keeping the storm water gullies, &c., in good order, because of its importance to the health of the town! (Cries of "Shame.")

The modified terms now submitted are based on a rate of three per cent. on the actual rentals, to be brought into operation over a period of four years. This would not *when in full operation* produce more than about £7,000 a year to commence with, which would barely suffice to meet working expenses. This income would of course increase with the growth of the town, but on a sanguine estimate, it would not produce enough to meet the service of the Debentures for at least ten years, and that by no means certain.

In the meantime, what would be the position of the Debenture-holders? Provision would have to be made for the working expenses for the first four years, and thereafter it would be dependent entirely on the growth of the town and improved times as to what the Debenture-holders would get;— they could not expect much if anything for the first year or two after the four years. In other words, they would have to wait for five or six years before receiving anything, and thereafter the growth could hardly be expected to be otherwise than slow.

On the 7th March, 1892, the Municipality, without previous notice to this Company, passed the following Decree:

1. To ratify the rejection of the Drainage Works, decreed on 30th December, 1890, and 5th January, 1891, by the two preceding Administrative Commissions, on account of the said works not having been constructed in conformity with the contract.

2. The Drainage Company to immediately proceed to place in the required conditions of hygiene and safety all the storm water gullies existing in the city, for at present they constitute a danger to public health, and because the keeping of the same in good order is its exclusive obligation, seeing that the works have *not* been officially accepted.

3. The Municipality declare that they consider null and of no value nor legal effect the Drainage Concession, together with that part of it relating to the Water-works Company, and the contracts referring to it, for those defects that exist in it according to the report of the Lawyers, made 22nd December, 1890, and amplified by the note of the Municipal Assessor, made 12th February of the current year.

One could understand it if an offer were made to acquire the works for the town, as has recently been done at Buenos Ayres with their drainage works, but nothing of that kind has ever been suggested.

One can only hope that this decree (which gives some idea of the spirit of the opposition), will in soberer moments be regretted as an act of injustice. It would be so, if the works were not of the utility and importance to the town which they really are, as I shall proceed to shew.

For years before this Concession th health of the town, which ought to be very good, had been deplorably bad, the death rate being over 40 per 1,000. In London, as in all well drained towns the usual rate is 15 per 1,000, and in many cases much less. Rosario is particularly well situated for a good system of drainage. In Rosario it has become worse since the town has had a water supply, which has increased the dangers of the cesspools by the fœcal matter becoming more liquid, and thus percolating through the soil. Most houses are not content with one cesspool, but have many; some of the properties being honeycombed with them, with the result that, according to the latest accounts the health of the town is very bad, typhoid fever, diphtheria, &c., being prevalent.

I hope f have put the whole matte clearly before yon, and to keep our proceedings in order I will move the following Resolution:—

"That this meeting regrets that "with every desire to meet the rea "sonable wishes of the inhabitants "as a temporary measure of relie "while the gold premium remain "high, it cannot accept the modifica "rates now submitted by the autho "rities. which would not for some "years produce sufficient to mee "working expenses, and it would "be doubtful when the income "would be sufficient to meet the "current service of the Debentures "to say nothing of arrears."

I now conclude hy inviting the Debenture holders to favor me with their views, whether for or against the Resolution.

Mr. F. W. Jones: I beg to second the resolution.

Mr. Harston: Have you taken any opinion as to the legal validity of the concession—I mean in the Argentine?

The Chairman: It was taken before anything at all was done—before the concession was signed.

Mr. Cull; I should like to ask what our position is with regard to the contractors. What is the position of Messrs. Meiggs? I understood they guaranteed the acceptance of the works by the Municipality, and it seems to me that their contract is not finished until that is done.

Mr. Harston: Mr. Chairman, I should like to make a few remarks on your speech.

As I understand the prospectus, and I read the prospectus very carefully and the speech which you made at the last meeting, Messrs. Meiggs procured or acquired the concession. In exchange for that and the execution of the works they took the whole of the shares and debentures of this Company. Then Messrs. Meiggs guaranteed to pay the interest of the debentures up to the completion of the construction to the satisfaction of the Municipality and the Company, and also the administrative expenses. I have taken the trouble to search and see how that stands, and I find that this Company did not do anything as against Messrs. Meiggs for six months. Then in February they brought an action against Messrs. Meiggs, claiming £60,000 damages, namely, two half year's interest on the debentures, that is, for July and January last, and also £4,000 for engineering and administrative expenses; and if Messrs. Meiggs have not completed the contract, no doubt they are liable to pay these amounts.

The Chairman: I will lose no further time in putting to the meeting the resolution I have read.

Mr. Gardyne: It strikes me that that resolution is a little argumentative. Would it not be better to merely pass a vote of confidence in the Committee and leave details in your hands?

The following resolution was then substituted, and being put to the meeting was carried unanimously, viz.:—

"That this meeting having heard "the Chairman's statement, ap- "proves the action of the Commit- "tee and will continue to give them "every support."

GENERAL POST-OFFICE.

Mr. Editor,

I have this day (13th) received a notice from the Post Office that a letter was awaiting me at the office on which I had to pay two cents. Now what do I find? That it is a letter posted in Tucuman on the 28th of July, short prepaid one cent, but properly addressed, and it must needs take about *14 days* to advise me, and then I have to go for it to the General-PostOffice.

Yours, etc.

R. H. I.

Ed. Note—We are glad to say that the Post-office is now better managed than ever before, and we feel certain that it is sufficient to call attention to the above.

The next mails for Europe will be by the Trent to-morrow and the Duca di Galliera the day after: both closing at noon.

An active glacier has been discovered in Southern California of such heroic proportions as to be compared with the minor glaciers of the Alps, Andes and Himalayas. Also in Lower California two volcanoes have been discovered spouting smoke and flame at short intervals, accompanied by rumbling and a slight trembling of the earth.

There are 512,407 telephones in use in the U.S., and their total length in wire is 255,800 miles, or more than 18 times the circumference of the earth.

The longest train ever hauled by a single engine in the United States was one on the Reading road. It contained 250 empty care and was a mile and a quarter in length.

They were all as gay as larks at South Barracas on Sunday. All kinds of games and pastimes were carried on, but the 'sortija' competition was the pet of the plebs present. Fifty splendidly mounted 'hijos del pais' took part in it, and the applause was sky-splitting at every successful hit. There was a rattling display of fireworks at night.

Several parties whose initials are N. and N. N. have been caught in a smuggling swindle. N. is capital initial to hide the identity of these smuggling thieves, as they are never brought to book, and nobody is punished.

We regret to announce the death of Mr. Frederic Hutz, which occurred on Saturday. His funeral took place on Sunday and was largely attended.

The amount paid in salaries to teachers and school superintendents in the United States every year is $30,000,000. The contemplation of this huge amount in American Gold Eagles (a bird of quite another feather than the Argentine G.E.) is enough to make Argentine State School teachers 'lay them doon and dee;' as the gentleman who loved Annie Laurie declared he was anxious to do; but we have never believed a word of it; as she probably had a large

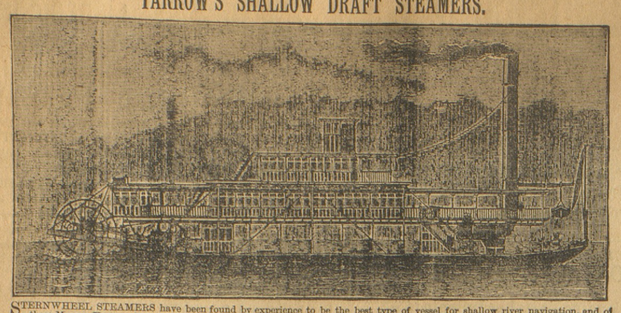
YARROW'S SHALLOW DRAFT STEAMERS.



STERNWHEEL STEAMERS have been found by experience to be the best type of vessel for shallow river navigation, and of these Messrs. YARROW have constructed a large number of successful examples for all parts of the world. Vessels on this system are constructed, when required, to draw as little as 6 inches.

Messrs. YARROW lately built the sternwheelers "Mosquito" and "Herald" for the British Government, for service on the Zambesi.

They were constructed in floatable sections (capable of shipment), which were simply bolted together, avoiding thereby the costly and difficult process of rivetting up and launching.

For full particulars apply to—

Dr. J. Collis Browne's Chlorodyne—Dr J Collis Browne (late Army Medical Staff) Discovered a Remedy, to denote which he coined the word «Chlorodyne.» Dr Browne is the Sole Inventor, and as the composition of Chlorodyne cannot possibly be discoverrd by Analysis (organic substances defying elimination), and since the formula has never been published, it is evident that any statement to the effect that a compound is identical with Dr Browne's Chlorodyne must be false.

This caution is necessary, as many persons deceive purchasers by false representations.

Dr. J. Collis Browne's Chlorodyne—Vice Chancellor Sir W. PAGE WOOD stated publicly in Court that Dr. J. Wanted a Partner to Manage a small Farm.

He must be well up in raising poultry and in dairy farm produce generally, also must understand pig breeding (fine stock) which is a special feature of the business. The land is in a high state of cultivation, everything for use for agriculture purposes; a really first-class collection of poultry and a stock of about 100 young sows, hogs and stores. The farm is situated about 1 hour by rail from the capital. To a man meaning work and with ordinary intelligence good terms will be offered; but it is useless for men to reply who possess no status and with no desire to push themselves. A man possessing the requisite knowledge can make money. An intelligent, promising man would be instructed in the business.

In the "Daily Post" of September 2 appears a leading article—evidently from an analytical expert—showing that after 15 minutes "draw," Indian Tea yields 17·73 o/o tannin, while from China comes only 7·93. What this means few know, but those troubled with indigestion may realise in part by use of True China Tea for one week.
